The Proposed Shareholder Mandate will not have any effect on the net assets per share, gearing of the Group, EPS and share capital and substantial shareholders' shareholdings of KKB.

5. RATIONALE AND BENEFIT OF THE PROPOSED SHAREHOLDER MANDATE

The rationale for KKB and its subsidiaries to enter into RRPT is to take advantage of efficiencies in business dealings, in particular competitive prices, reliability of goods, materials and services and shorter delivery time.

These mandated Related Parties have long-standing business relationships with KKB and its subsidiaries and the quality of the materials, goods, products and services have proven to meet the stringent requirements imposed by the Group. All these will ultimately benefit KKB and its subsidiaries and shareholders by enhancing profitability and maximizing returns on shareholders' return.

In addition, the proven track records of KKB and its subsidiaries in steel fabrication and related products, coupled with its certification for ISO 9001:2015 and ISO 45001:2018 will mutually benefit all Related Parties concerned.

The RRPT entered and to be entered into by KKB and the Group are all in the ordinary course of business. They are recurring transactions of a revenue or trading nature which are likely to occur with some degree of frequency and arise at any time and from time to time. These transactions may be constrained by the time-sensitive nature and confidentiality of such transactions, and it may be impractical to seek shareholders' approval on a case by case basis before entering into such RRPT described herein to allow KKB Group to enter into such transactions which are recurrent, made on an arm's length basis and on normal commercial terms not prejudicial to the interest of the shareholders and not more favourable to the related parties than those generally available to the public and are not detrimental to the interest of the minority shareholders.

By obtaining the Shareholder Mandate, and the renewal of the same on an annual basis, the need to convene separate general meetings from time to time to seek shareholders' approval for the entry by KKB Group into such RRPT will be eliminated. This will substantially reduce administrative time, inconvenience and expenses associated with the convening of such general meetings without compromising the corporate objectives of KKB Group or adversely affecting the business opportunities available to KKB Group.

These would ultimately benefit the Group and the shareholders by enhancing profitability and returns on shareholders' funds.
